- Collaborated on diverse projects, focusing on developing user-friendly interfaces and backend services using PHP, CodeIgniter, and Laravel.
 - Added new features and maintained websites for various clients, ensuring optimal performance and user satisfaction.
-

Projects

Pimpri Chinchwad University Website

Environment: HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, Laravel

Role: Senior Developer (Frontend & Backend)

Currently leading the development of the Pimpri Chinchwad University website from scratch using the Laravel framework. The website will serve as an online portal for the university, providing students, faculty, and staff with easy access to information about courses, departments, events, academic resources, and more. The project includes designing the frontend interface, developing backend features, integrating with the university's database, and ensuring a responsive and user-friendly experience.

Autovista.in

Environment: HTML5, CSS3, Bootstrap, JavaScript, PHP CodeIgniter, MySQL

Role: Frontend & Backend Developer

Developed the **Autovista.in** website, an online platform for Maruti Suzuki car sales showrooms and service centers located in Pune and Mumbai. Designed and implemented front and backend features, allowing users to browse car models, view pricing, check dealership locations, and access service center information. Integrated dynamic data management for the dealership and service center details, ensuring seamless user experience and real-time data updates across multiple locations.

Admin Panel

Environment: HTML5, CSS3, Bootstrap, JavaScript, PHP CodeIgniter, MySQL, Ajax, JSON

Role: Frontend & Backend Developer

Developed a comprehensive admin panel for a car showroom website to manage car details, models, variants, and pricing based on location. Designed the UI and implemented backend functionality for data management, integrating it with the database.

LMS Tool

Environment: HTML5, CSS3, Bootstrap, JavaScript, PHP CodeIgniter, MySQL, Ajax, JSON

Role: Frontend & Backend Developer

Developed a Lead Management System (LMS) to streamline client and customer management. Built features for lead creation, conversion, and account management, with functionality for importing/exporting data, generating reports, and data visualization using charts.

Core Competencies

- Responsive Web Design (HTML5, CSS3, Bootstrap, Tailwind CSS)
- Frontend & Backend Development
- CRM System Development
- CRUD Operations and Database Management (MySQL)
- API Development and Integration (REST APIs, Payment Gateways)
- Data Visualization (Charts and Graphs)
- Problem-solving and Debugging
- Version Control (GitHub) and Project Management (Trello)

Technical Skills

- **Programming Languages:** PHP, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Frameworks:** CodeIgniter, Laravel
- **Database Management:** MySQL
- **Development Tools:** Visual Studio Code, Sublime Text, Notepad++
- **Operating Systems:** Windows (7, 10, 11), Linux (Raspberry Pi)
- **Version Control:** GitHub
- **FTP Clients:** FileZilla

Education

Savitribai Phule Pune University || Pune, Maharashtra, India
Masters of Computer Application (MCA)

Aug 2020 - June 2022
Percentage: 80.10%

Personal Details
